DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1, line 15 – delete the “,” after the word “returner”.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has submitted a replacement drawing sheet which overcomes the drawing objection of the previous office action. Claims 1, 3, 5, 7 and 14-16 were allowed in the previous office action. Specifically, independent claim 1 requires a paper returner having a first face and pivotable between a first position at which the first face is made flush with the guide plate and a second position at which the first face blocks the paper transporting passage and a separation pad provided on the first face of the paper returner and having a friction coefficient which is higher than a friction coefficient of the first face of the paper returner.

The prior art of record does not disclose or suggest these limitations. Japanese Publication No. 55044473 to Eng discloses a paper returner with a separation pad, however, the returner does not have a first position where the first face is made flush with the guide plate.

Art Unit: 3653

Similarly, Japanese Publication No. 11071036 to Shimomura discloses a paper returner with a separation pad, however, the returner does not have a first position where the first face is made flush with the guide plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Claims 1, 3, 5, 7 and 14-16 are allowed.
